#### Vanderbilt University on Coursera

📅 2020

An Android mobile development course offered through Coursera.

## SOFT SKILLS

Desire to learn

Team player

I enjoy tackling problems

Attention to detail

Creative

## PROJECTS

### Liquid Bug Tracker

📅 2021

🔗 <https://github.com/Dark-Matter-crypto/bug-tracker>

A bug/issue tracker website. Probably the biggest project I've had to build so far. Will be going live online soon!

- Built with Bootstrap and Django.

### Mzansi-News

📅 2020

🔗 <http://mzansinews.herokuapp.com/>

A news hub website making it easier to find all the top headlines from multiple news sources.

- Hosted on Heroku using a free package. Might take a moment to open on first launch.
- Made use of RESFUL API to pull in all the news articles.
- Built with Django and Bootstrap

### Personal Website

📅 2020

🔗 <https://github.com/Dark-Matter-crypto/Tlotlego-Portfolio>

A personal website to showcase my skills and all the fun projects I've been working on. Will also be live soon!

- Built with Bootstrap and Django.

### MGP Weather

📅 2020

🔗 <https://github.com/Dark-Matter-crypto/Tlotlego-WeatherApp>

This web app is to check the weather forecast of any major city around the world.

- Made use of OPENWEATHER API.
- Built with Django and Bootstrap.

## SUMMARY

I'm passionate about coding and creating fun projects, and I'm looking forward to sharing more of what I've been working on soon. I will be doing my final academic year in 2021. I love working out in my free time to keep in shape. Music is life!
